CSU GE / PLAN B INFORMATION

What is CSU-GE/Plan B?

CSU GE refers to the pattern of General Education courses that students can complete at Santiago Canyon College to fulfill general education and admission requirements to a California State University (CSU) campus. At SCC this pattern of courses is known as Plan B.

Is Plan B required for transfer to a CSU campus?

No. An upper-division transfer student must complete 60 transferable units, with a minimum 2.0 grade point average. Within the 60 units, a minimum of 30 units of courses that meet general education requirements must be **completed with a "C" or better**. The 30 semester units must include:

- ❖ 9 units in the English language (one course each in Written communication, Oral communication and Critical Thinking) – **Area A** and
- ❖ 3 units in mathematics/quantitative reasoning – **Area B4**

Completion of Plan B is not a requirement for transfer to a CSU campus, nor is it the only way to fulfill general education requirements at a CSU campus. If a student chooses a high unit major, it may be advantageous to take courses fulfilling general education requirements at the CSU transfer campus. Students are advised to see an SCC counselor for more information.

What is certification of Plan B?

"Certification" refers to official notification from Santiago Canyon College that a student transferring to any CSU campus has completed courses fulfilling CSU lower division general education requirements. To obtain full certification, students must complete 39 units in the designated general education categories on Plan B. Students who are certified with 39 semester units of lower-division GE-Breadth units will not be required to complete any additional lower division general education work after transfer.

Can I get partial certification on Plan B?

Yes. Partial certification refers to certification by area (A, B, C, D, and E) on Plan B. To be partially certified all courses within an area must be completed. The CSU transfer campus will require completion of the general education requirements in those sections which are not certified. The transfer campus may require additional courses as required of "native students".

Can Advanced Placement test scores be applied to Plan B?

Yes. Most AP tests can be used to complete Plan B requirements as long as the student has earned a 3, 4, or 5 on an AP exam, and is requesting full or partial area certification. Please see an SCC counselor for more information.

Can students complete Plan B coursework at more than one college?

Yes. SCC will certify courses from another community college, or other accredited participating institution, if the course taken was on an approved GE list at the time it was taken. The course will be certified for the CSU GE breadth area that it was approved at the college where the course was completed. If the course was completed at an accredited institution that does not maintain a certified GE breadth list, the SCC Admissions Evaluator will determine course placement on Plan B.

Can a course be used to satisfy more than one subject area?

No. If a course is listed more than once, it may be used to satisfy only one category.

Can a course be used to satisfy a Plan B requirement and a major requirement?

Some CSU campuses will allow this for certain majors and some will not. Please check with an SCC counselor for more information.
