This year, I announced my retirement after 12 years as president of Santiago Canyon College in the Rancho Santiago Community College District and a total of over 40 years in higher education. It has been a great ride and a wonderful source of pride to be involved with the Santiago Canyon College (SCC) community of colleagues and friends.

The 2013-2014 Annual Report provides a condensed look at the work that has been accomplished over the past year at SCC. One of the projects affecting the entire campus and district is the Accreditation Self-Evaluation Report. Students, faculty, staff and administrators have worked continuously and collegially to develop a report representative of the high quality educational services Santiago Canyon College provides for the community and students. The self-evaluation report was approved by the RSCCD Board of Trustees in June, and representatives from the Accrediting Commission for Community and Junior Colleges will be conducting a site visit in October 2014.

SCC has worked hard to fill the year with new growth and accomplishments. SCC hosted the exclusive app competition in partnership with Microsoft’s Publish It workshop, the revived Cosmetology program is back on track in a new location, the college’s Forensics team has returned with award-winning performances at local and state competitions, the SCC biotechnology program was recently approved by the Los Angeles/Orange County regional consortia and is considered a model statewide, SCC now has 17 State-approved Associate Degrees for Transfer, with one pending for a total of 18, and SCC was recently awarded a $6,000,000 grant for Career Pathways in teacher preparation. In addition, the SCC gymnasium has hosted numerous state-wide athletic competitions, with several filmed for television viewing. SCC’s own athletics teams have accomplished a great deal with the Women’s Soccer and Softball teams, plus members of the Men’s Golf, and Men’s and Women’s Track and Field and Cross Country teams, competing in state finals.

Over these past twelve years, together, we have built a beautiful campus, a wonderful learning community and the best college family I’ve ever known. The camaraderie exhibited by the overwhelming majority of students, faculty, staff, and administrators is unique to very few college environments. For this and for the support I have received over these years, I thank each and every one at SCC and RSCCD.

Now, I invite you to take a look at the following pages to provide a closer look at what Santiago Canyon College has done over the past academic year to keep quality education and services at the forefront of our institution.

Juan Vázquez
President
In 1980, Rancho Santiago Community College District (RSCCD) purchased 30 acres from The Irvine Company to build a college campus in East Orange that would meet the current and future educational needs of this rapidly growing community. In the fall of 1985, the RSCCD Orange Campus began its first semester, offering a variety of general education, transfer and vocational education courses to more than 2,500 students.

By 1996, enrollment at the Orange Campus had more than doubled. In May 1996, the RSCCD Board of Trustees continued its vision to develop a separate college to serve the residents of East Orange and voted to become a multi-college district; in July 1997, the Board voted unanimously to change the name of the Orange Campus to Santiago Canyon College. In January 2000, the Western Association of Schools and Colleges awarded Santiago Canyon College full accreditation as an independent college.

In fall 2000, with the donation of an 11.9-acre parcel from The Irvine Company, the college campus grew from 52 to 64 acres.

In November 2002, voters in the college district voted to approve Measure E, a $337 million bond measure to provide for renovation and new construction at both Santiago Canyon and Santa Ana colleges.

The college district used Measure E funds in April 2003 to purchase an 18.77-acre parcel (at the corner of Chapman and Jamboree) from The Irvine Company, bringing the college campus to 82 acres.

In March 2004, the college district board of trustees approved Santiago Canyon College’s revised facilities master plan. The master plan guides the placement of all new buildings, facilities, parking and open spaces on the college campus. In September 2004, the college celebrated the opening of the student services and instruction building. In the fall of 2006, a grand opening ceremony was held for the new library.

In January 2008, the college broke ground on the science center, which was constructed using a combination of state and bond funds. The center was opened for classes in fall 2010.

The SCC softball complex opened on January 28, 2009. The complex features a state-of-the-art team room, enclosed and lighted batting cages, storage rooms and a top-of-the-line netting system. The facility is also among the first in Southern California to incorporate artificial field turf.

In December 2009, the SCC Women’s Soccer team won the state and national championships.

A new parking lot, with space for 1,000 vehicles, opened for fall 2010 at the corner of Santiago Canyon Road and Newport Avenue.

In the spring 2011, the college broke ground on the new Humanities Building and Athletic and Aquatics Complex projects. The complex opened for classes in spring 2013. A variety of local school and community organizations have also utilized the pool and gymnasium facilities. The Humanities Building opened for classes in spring 2014.

During Commencement 2014, the Chancellor proclaimed the Juan A. Vázquez Promenade designated space in front of the Humanities and Science Center buildings.

Upon completion, Santiago Canyon College will have the capacity to serve the educational needs of up to 20,000 students.
SCC Fast Facts

Size: 82 acres
ENROLLMENT: 13,859
• Credit: 8,978 (fall 2013)
• Non-Credit: 4,881 (fall 2013)

ETHNICITY:
• Native American 1%
• African-American 2%
• Asian 8%
• Latino 44%
• Caucasian 37%
• Filipino 2%
• Other/declined to state 5%

FACULTY:
• Full- and part-time (credit): 518
• Full- and part-time (noncredit): 165

ACADEMIC ACHIEVEMENT:
• Transfers to four-year colleges and universities (2012/2013 academic year): 1,034
• Associate degrees and certificates (2012-2013 academic year): 2,756

SANTIAGO CANYON COLLEGE:
• Serves more than 13,000 students annually through one of the state’s largest continuing education (noncredit) programs.
• Offers the only comprehensive survey/mapping sciences program among the Southern California community colleges.
• Directs the state’s largest trades apprenticeship program, providing skilled workers in the fields of barbering, carpentry, cosmetology, electricity, maintenance and surveying.
• Offers the most comprehensive water utility sciences program in Orange County. Graduates work at water districts and agencies throughout Southern California.
• Home to award-winning sports teams that compete in the Orange Empire League.
• Approved as independent institution for certifying all veteran students who have declared SCC as home campus.

MASCOT:
• The Hawk

Source: CCCCO MIS Data Mart

Notes:
1. Data reflect academic year and include Summer, Fall and Spring semesters. Overall SCC data do not include CED courses.
2. Total numbers (N) reflect total seat enrollment counts & may be higher than the total numbers of grades given due to inclusion of ungraded review courses.
3. Course retention rate: percent of enrolled students at first census who received grades other than “W” or “DR” at the completion of courses.
4. Course success rate: percent of enrolled students at first census who remained and received grades of A, B, C DR, or P at the completion of courses.
The Office of Academic Affairs guides and supports faculty and programs at Santiago Canyon College to provide a current and creative curriculum to meet the educational opportunities valued by students and the community.

Santiago Canyon College has seventeen (17) approved Associate Degrees for Transfer, with the recent approvals of Anthropology, Geography, Geology, Kinesiology, Philosophy and Spanish. There is one additional Associate Degrees for Transfer, pending approval, which will increase the total to eighteen (18). The work required for approval by SCC faculty, staff and administrators benefits SCC students transferring to a CSU by guaranteeing admission and an efficient transfer process.

The California Community Colleges Board of Governors had adopted a goal of each college having AA-T (Transfer) and AS-T (Transfer) degrees approved by Fall of 2014 in 100 percent of the majors they offer in which there is a Transfer Model Curriculum. SCC met this deadline in July 2013, over one year ahead of schedule! With the pending approval of the Economics as the 18th transfer degree, SCC will be at 138% completion of its original state-mandated goal of 13 transfer degrees.

ARTS, HUMANITIES AND SOCIAL SCIENCES, LIBRARY
Second Annual Talent Blossoms
In partnership with the Community Foundation of Orange, SCC Professor Binh Vu (Music) assisted with the Second Annual Talent Blossoms in Orange Music Workshop for 3rd-6th graders in the Orange Unified School District (OUSD), on Saturday, October 20. The culmination of morning student training and practice workshops was presented in an afternoon entertainment program that included instrumental and vocal music, dance, and hand chimes performances in front of parents and community attendees.

Recording for Saigon Entertainment
Binh Vu (Music) coordinated, directed and accompanied, and Larry Ball (Music) conducted the SCC College Choir and community choir for a recording session at Saigon Entertainment Television, Channel 57.5, in Garden Grove. Jeff Hendrix and Victoria Leonard (both Dance) assisted with SCC students’ choreography. The performances began with the college choir, followed by the community choir, and then a finale performance combining both choirs with holiday songs. The video recording session ended with President Juan Vázquez providing a greeting on behalf of SCC for the holiday season. The performance was aired on Christmas Eve and Christmas Day. Binh Vu created a promotional video from this Holiday Showcase.

SCC Student Receives Director’s Scholarship
SCC student Haroon Kahn, Honors Program member, attended the 14th Annual Honors Transfer Council of California (HTCC) Research Conference, on Saturday, April 5, 2014, at the University of California, Irvine. Haroon received the coveted Director’s Scholarship, the highest honor HTCC bestows on a student. This award is accompanied by a $1000 scholarship and an opportunity to publish his abstract, Simulating Binary Black Hole Mergers to Predict Gravitational Waveforms. Haroon’s success is the direct result of the support of the SCC Math and Science Departments and the SCC STEM program.
BUSINESS AND CAREER TECHNICAL EDUCATION
Window’s Publish It a HUGE success!!
Thanks to the success of Microsoft’s Publish It event, held at SCC on Saturday, May 17, 2014, 24 new applications have been submitted to the Window’s Store. Forty-five developers, ranging in age from 14 to 70 years old, from all over Southern California, San Diego, and from as far away as Las Vegas, attended the session.

SCC Professor Ron Kessler (Computer Science), a break-out session on beginning Windows phone apps. Sam Stokes, Microsoft Corporation’s Southern California Academic Representative, presented two extended break-out sessions, one for building Windows phone apps and a second for building Windows 8.1 store apps. A tablet was awarded as the grand prize for one app creator, while the runner-up received a new phone, and the top ten (10) apps creators received Nokia headphones. Nokia Corporation is interested in partnering with SCC to create an on-going training environment for the Southern California community. Ron Kessler, and Sam Phung, ICOP Corporation, organized the event.

Cosmetology is Back!
The SCC Cosmetology program has returned, thanks to the efforts of Dean Corine Doughty and Director Kari Irwin (Business & Career Technical Education–BCTE). The contracted beauty school, and new partner, Santa Ana Beauty Academy (SABA), is located at the border of Orange and Santa Ana at 2231 North Tustin Avenue. This beauty school was chosen for its integrity, state of the art training facility, and passion for assisting students with their career pathway. Students are enrolling through SCC, and attending their classes at SABA. The first cohort began on March 11, with new cohorts beginning the first Tuesday of every month.

The Power of Perkins
Congratulations to all the 2014/15 Perkins IV applicants for successful proposals and presentations. Funded projects include American Sign Language, Biotechnology, Survey/Mapping Sciences, Digital Media Arts, and Continuing Education Office Technology and Website Design and Development. Perkins funds are essential for Career Technical Education programs to improve and advance their offerings to align with business and industry needs.

Grants at Work
With primary oversight from SCC’s BCTE division, RSCCD is administering the State Chancellor’s Office of California Community Colleges, Division of Workforce and Economic Development’s, Regional Consortia Grant. The five-year grant cycle began July 1, 2013, in the amount of $379,000 annually, for a grand total of just under $2,000,000. The grant was awarded to SCC on behalf of the Los Angeles-Orange County Regional Consortia, and is funded through the Carl D. Perkins Career and Technical Education Improvement Act of 2006 comprised of Title I-B Leadership funds. Under SCC leadership, the consortia has improved the regional program approval process, united the priority and emerging industry sector key talents, and unified the region under the Doing What Matters framework, an initiative from the Chancellor’s Office. Visit http://doingwhatmatters.cccco.edu/ for more information.

The BCTE division participated in the Orange County SB1070 grant planning process led by Coast Community College District (Coast CCD). The program was successfully awarded to Coast CCD, and the division is closely working with them on their objectives to better align policies among Orange County Community Colleges.
Industrial Video Production Featured in Orange County Register
The SCC Industrial Video Production class at the Orange County High School of the Arts (OCSA) was featured in the August 29, 2013, edition of The Orange County Register, for producing a commercial featuring Giselle Frixione’s new workout product, the UrbanSak. The co-facilitator Sandy Sternshein (TV/Video Communications) is currently writing the curriculum for a similar class utilizing collaborations between local clients, producers and students for SCC.

MATHEMATICS AND SCIENCES
Biology Department Launches New BioTech Certificate
SCC’s Biotechnology Program was recently approved by the Los Angeles/Orange County regional consortia and is considered a model statewide for both the biotechnology initiative and the State Chancellor’s office “Doing What Matters” framework. The college recognized Dean Corine Doughty (BCTE), Denise Foley (Biology) and Anson Lui (Biology) for their outstanding work to align curriculum with colleges in Orange County, as well as to respond to the 1400 Orange County biotech companies seeking prospective employees with skills in food safety, research and development and quality control. This effort is a benchmark for faculty working together regionally while supporting both local employers and student success at Santiago Canyon College. The program was supported by the RSCCD Career Technical Education collaborative SB1070 grant.

New Records Achieved by Hawks Softball
The Hawks Softball team enjoyed the most successful season in SCC softball history. The team won its first Orange Empire Conference championship and advanced to the state finals in Bakersfield, California, where they finished third in the state. The team recorded a season best record of 38 wins and 8 losses and advanced further in the state playoffs than ever before in program history. Congratulations to Head Coach Lisa Camarco and her great coaching staff of Lindsey Klabacha and Doug Aiken (Kinesiology), and the outstanding student athletes that have represented our college so proudly both on the softball diamond and in the classroom.

Women’s Soccer Team Reaches State Finals
The SCC Women’s Soccer team advanced to the state Final Four for the sixth time in eight years and reached the state final championship game for the sixth time in a truly incredible season. Congratulations go out to all of the ladies who represented Santiago Canyon College throughout the 2013 women’s soccer season. They compiled a remarkable season record of 21 wins, 2 losses and 2 ties and won the Orange Empire Conference Championship for the tenth consecutive time. Congratulations to Head Coach Ian Woodhead and his outstanding staff of Lisa Hermen, Chris Woolley (all Kinesiology), and Christy Medlin and Annie Schlimmer. Also, a word of thanks to our outstanding Athletic Trainer Kelsey Bains (Kinesiology) and her staff for dedicated support to all the athletic teams throughout the season.
“Discover STEM Day” a Big Success
On Wednesday, October 23, SCC hosted “Discover STEM Day,” with hundreds of students in attendance. The fun day of challenging geometric puzzles, racing student-made robots and an intricate Rube Goldberg Machine, (among other activities), served as a time of discovery and exploration of learning. The goal was to raise awareness about STEM (Science, Technology, Engineering and Math) education.

Scott James (Distance Education), co-presented information regarding online/educational technology and distance education at the RSCCD Faculty Institute, on Friday, November 1, with Cherylee Kushida, Distance Education from Santa Ana College. Topics included Blackboard, blogging, web conferencing, video recording, and meaningful ways to use Twitter in the classroom.

As a member of the California Corporate College, an economic program brought to the California workplace through the California Community College system, Dean Corine Doughty, Director Kari Irwin, Julie Peeken, and Amy Styffe (Division of Business & Career Technical Education) hosted training sessions for health insurance agents which brought nearly $13,000 to the division. The meetings were mandatory trainings for the Affordable Health Care Act known as Covered California. This was a successful way to market the campus, generate unrestricted revenue and utilize room space during non-peak hours. Thank you to Administrative Services (Media Support and Facilities) for assisting with the logistics.

Regina Lamourelle (Human Development) has a regularly scheduled radio talk show on teen parenting issues for the Bam Radio Network. The shows are also on iTunes, and Regina's shows are frequently ranked in the top 30 out of 300,000.

Barry McCarthy (Project Management ) lead a student-initiated socially responsible class project in fall 2013 in the Principles of Project Management Bus 090/PBLC 080 course. As a result of the project, students raised over $8,000 dollars, donated 24 boxes of clothing, solicited enough toy donations to fill a room, provided dinners and dancing for seniors, planted trees, and sponsored and put on a luncheon for armed forces military members.

Sandy Sternshein and David Echols (TV/Video Communications Co-Facilitators) developed a new Digital Media Production Certificate of Proficiency to address the needs of local industry professionals. This program prepares students for careers in commercial video production.

The Water Utility Science department received a $3,000 donation from the Southern California Water Utilities Association for the water program to purchase instructional supplies and equipment.
What happens when you combine sand buckets, water, an electric fan that blows a sailboat, a marble ramp, blocks that act like dominoes, with a battery- powered buggy? You zip a zipper! That’s what the STEM CLUB (Science, Technology, Engineering, Math) members, along with club advisor, Cindy Swift (Physics) did on November 9, at the Rube Goldberg Machine Contest in Santa Monica. A Rube Goldberg machine is an overly complex contraption, designed to accomplish a simple task. The students used a variety of everyday items in a whimsical way to create a series of chain-reaction steps to zip the zipper. This was a Title V supported activity.

Morrie Barembaum (Astronomy), Nahla El Said (Chemistry), Eric Hovanitz (Geology), Cindy Swift (Physics), and Jeff Wada (Chemistry) accompanied STEM club members on a tour of the Jet Propulsion Laboratory in Pasadena on Monday, January 13, 2014.

The Santiago Canyon College Softball Team spent Saturday, January 11, 2014, working with the Orange Canyon Girls Softball League. Over 100 young softball enthusiasts between the ages of 5 and 14 learned the art of hitting, throwing, base running, fielding and pitching. This is the 3rd year of the partnership between the Orange Canyon League and the SCC Hawks.

On Friday August 16, the Santiago Canyon College Women’s Soccer Program reached out to the local community by running a soccer clinic for young athletes in Placentia, working with the Junior United Soccer Association’s (JUSA) TOPSoccer program that provides opportunities for athletes with physical and mental disabilities. The team worked with athletes ranging in age from 3 to 20, on their dribbling, passing, and shooting while our staff offered guidance and encouragement.
As educators, we promote the growth and development of students and contribute to student learning through our exemplary programs and services.

STEM ACADEMY
Since the implementation of two STEM (Science, Technology, Engineering and Math) Grants, Title V and Title III, which both involve dedicated STEM counseling, STEM Counselors have recruited over one thousand students to actively join the STEM Academy. The academy serves as a conduit for STEM students to remain apprised of all of the latest STEM events occurring on campus. Students learn first-hand with specialized STEM workshops, guest speakers, scholarships, book grants, club opportunities, and more. The academy has served as a means to build peer learning communities and provide social support.

SMHP Grant Successes
The following outcomes were achieved as a result of a two-year California Community College Student Mental Health Program (SMHP) grant:

- Faculty & Staff Trainings: over 165 faculty and staff were trained on suicide prevention, risk and threat assessment and crisis response.

- Collaborations & Sustainability: new programs and partnerships were established including the initial stage of a doctoral psychology program; memorandums of understanding established with The Center OC and National Alliance for Mental Illness; and the Associated Student Government developed a new Health & Wellness Committee.

- Mental Health Awareness & Stigma Reduction: a new on campus student club, Active Minds, was formed during this academic year to provide student mental health advocacy; Send the Silence Packing—a national display of 1,100 backpacks representing the 1,100 college students who die by suicide each year came to SCC in the fall, 2013; Wellness Wednesdays—over 350 students and college personnel attended a series of mental health workshops and presentations; development of Kognito—an online training simulation—over 375 faculty & students used this online resource to learn how to identify at risk individuals and identify strategies to seek help; Paws for Stress Relief—an event during finals week utilizing therapy animals to help students monitor their stress level; and Wellness Fair to bring community agencies that provide mental health, alcohol and other drugs and nutritional information to students.
Student Services (continued)

- Research: SMHP administered the American National College Health Association—National College Health Assessment.

The SMHP grant was funded by the voter-approved Mental Health Services Act (Prop. 63) and is one of several Prevention & Early Intervention initiatives implemented by the California Mental Health Services Authority (CalMHSA), an organization of county governments working to improve mental health outcomes.

New Student and Parent Orientation
Approximately 325 parents of graduating high school seniors attended orientations during Early Welcome in April and May, 2013, at the same time that their sons and daughters were planning their fall schedule and receiving academic advisement and an orientation to Santiago Canyon College. Studies show that young adults look to their parents as their top influence when making career choices, thus educating parents on how to get involved in the educational process is critical. The orientation introduces parents and family members to campus resources, understanding assessment scores and curriculum sequences for math and English, articulation plans for transfer, and learning how to use the assist.org website. Parent evaluations describe the orientation as excellent, very informative, and a great assistance in their child's transfer and class preparation.

UBMS (Upward Bound Math and Science) Summer Program
UBMS hosted its inaugural six-week summer program from July 1-August 8, 2013. A total of 39 students from El Modena and Orange High Schools participated in the program, which focused on English/language arts, math, science, and leadership. Classes were lead by teachers from the Orange Unified School District, who designed curricular activities that are aligned with the new Common Core State Standards for grades 9-12. The first four weeks of the program were held at SCC, while the final two weeks were held at CSU Fullerton with students staying overnight in the residence halls. The students also participated in several field trips: The Museum of Latin American Art, CSU Long Beach, J. Paul Getty Museum, and the California Science Center in Los Angeles.

International Student Program
The SCC International Student Program was initiated in the spring of 2013, with start-up funds from the RSCCD Foundation to develop the necessary infrastructure to offer the program in the fall of 2013. With additional financial support from the SCC Foundation, a full-time international student coordinator was hired to provide leadership.

The program started with 8 full time F-1 visa students from India, South Africa, Mexico, Vietnam, Egypt, Canada and China, and grew to 21 students in the 2014 spring semester with additional students from Mongolia, South Korea, Afghanistan, France, and Singapore. The international students have partnered together to create an International Students Club. During the fall semester, the students experienced their first Thanksgiving turkey dinner. During the spring semester the club hosted meetings, pizza lunches, and beach days.

To review the international student program promotional video go to:
www.sccollege.edu/StudentServices/Admissions/InternationalStudents/Pages/default.aspx
On Tuesday, March 25, 2014 SCC hosted the Western Association for College Admissions Counseling (WACAC) “Share, Learn, and Connect” counselors conference. Over 100 high school, college and independent counselors attended the event, which was the first of its kind to be hosted by a community college in the 47-year history of WACAC.

The 2014 CalWORKs Annual Meeting was held on Friday, March 2, 2014. 22 Social Services’ Agencies’ Case Managers attended to discuss continued partnership and success of their clients, (our students), as well as to show-case SCC academic programs and resources available to CalWORKs students.

CH2M Hill Corp. has partnered with the Santiago Canyon College Foundation to provide a $5,000 annual commitment to students majoring in Science, Technology, Engineering, and Mathematics (STEM). These scholarships are awarded to ten worthy students who have shown exceptional commitment to their academic achievement. CH2M Hill is a global engineering firm that is committed to giving back to the local community and helping build the next generation of outstanding scientists, planners and engineers.

The School of Earth and Environmental Science at Chapman University was recently awarded a National Science Foundation (NSF) Research Experience for Undergraduates (REU) grant. The summer REU-site program identifies Santiago Canyon College as a partner and will provide SCC STEM (Science, Technology, Engineering and Math) students an opportunity to engage in hands-on, interdisciplinary research experiences and activities related to earth and environmental issues from a regional to a global scale each year for the next three years. Selected students will work side-by-side with Chapman professors throughout an 8-week undergraduate summer research program, earn a $4,000.00 stipend, and live in dormitory housing.

In June 2014, the Counseling Department launched the Online New Student Orientation project in response to the new Student Success and Support Program (formerly Matriculation) which requires new students to complete core services (assessment, orientation, and advisement) prior to registering for classes. Conveniently available to students online 24/7, SCC’s new student orientation is designed to foster student success by informing them about college academic programs, policies, and procedures, certificate, degree, and transfer information, services to support student success, and tools for educational planning.
The mission of the Continuing Education Division is to offer a variety of free, noncredit classes, programs, and services that enable students to maximize their potential by acquiring the necessary technical and academic skills to reach their personal, educational, and career goals so that they can benefit from, and contribute to, a changing American society as productive, active members of their communities.

2014 Adult High School Commencement
Thirty-nine graduates participated in the Continuing Education Division’s 15th Adult High School Diploma Commencement ceremony at Santiago Canyon College’s Vázquez Promenade. The greeting from the Board was delivered by Jose Solario, President of the Board of Trustees, and an inspiring keynote speech was delivered by SCC President Juan Vázquez. The student speaker was Claudia Ceja, and adjunct faculty member Jennifer Rincon was acknowledged for receiving the Continuing Education Adjunct Faculty Excellence Award.

Introduction to Economics on Video
Brian Fisher (High School Subjects) and Jolene Shields (High School Subjects/Adult Basic Education) developed a series of videos to accompany Introduction to Economics, a required course in the Adult High School Diploma Program. The project uses student-friendly media to provide clarity on the economic concepts that students in the course find most challenging. Completion rates in the course have doubled since the inclusion of the videos and other adjustments to the delivery of the course content. A few lessons can be viewed here: www.youtube.com/watch?v=r6AYXI-Embl

AB 86 Regional Consortium Planning Grant
In March 2013, the SCC and SAC Continuing Education divisions were awarded $326,047 as an AB 86 Regional Consortium Planning Grant to work collaboratively with the region’s adult education providers to develop plans to improve the delivery of adult education programs and services. Four AB consortium meetings were held in spring 2014. The members of the Rancho Santiago consortium are the Rancho Santiago Community College District, the Orange Unified School District and Santa Unified School District. The partners of the consortium are the Garden Grove Unified School District, Orange County Department of Education, and the Orange County Sheriff’s Department. The evaluation of the AB 86 approved programs and the needs assessment in the region were begun. The project coordinator (Chrissy Gascón), researcher (Lisa DiDonato), and web designer (Robert Lee) were selected to assist with specific AB86 tasks. A website for the Rancho Santiago consortium was purchased and started. Five task forces met to discuss the following specific program areas: ESL & Citizenship, Adult Basic Skills, Short-Term CTE, Inmate Education, Adults with Disabilities. The plan is expected to be completed by March 31, 2015.

Funding to Enhance Programs
In spring 2014, Connie Wilson (Coordinator, Business Skills) and Anthony Magno (Business Skills) presented and received funding for two proposals to the SCC Perkins IV Budget Steering Committee for funding to enhance seven of the Career Development and College Preparation Certificate of Completion programs. The Office Technology Program was funded with $10,912, and the Website Design & Development Program was funded with $77,162.

Architectural Programming Phase Complete
In spring 2014, faculty and staff participated in the completion of the Orange Education Center’s architectural programming needs conducted by R2A Architecture. The next phase of the refurbishing process is for R2A Architecture to design instructional and office space that aligns with the identified programming needs while complying with building code standards required by the California Department of State Architect.
On Friday, May 30th, the Associated Student Government held its first annual student banquet at Orange Education Center with over 150 students, staff, faculty, and administrators in attendance. Students enjoyed a catered meal and music was provided by a DJ. The Communicators Club performed a touching rendition of the song, We are the World, for the audience. A raffle was also held, and members of the student government were recognized and thanked for their contributions to the school.

The Santiago Canyon College (SCC) Continuing Education Division, along with the Santa Ana College (SAC) School of Continuing Education, applied for continued funding under the Workforce Investment Act, Title II: Adult Education and Family Literacy Act. In mid-spring 2014, notice was received of the intent to award funding by the California Department of Education. Later in spring, notification was received that the preliminary amount to be received in 2014-15 is estimated at $3.7 million, an increase of over $85,000 compared to 2013-2014.

After suspending the program for three years, due to budget reductions, the Program for Older Adults was re-established in spring 2014 with the offering of twelve sections of classes for Senior Citizens.

In fall 2013, students in the community services quilting classes, as well as Inmate Education sewing classes, donated their time and sewing expertise in making personal sanitary supplies for high school girls in a village in Kenya for an international nonprofit agency Days for Girls. www.daysforgirls.org
The core purpose of SCC’s Administrative Services Division is to provide quality services in support and advancement of the academic mission of Santiago Canyon College. To this end, all members of the Administrative Services team are committed to providing services and facilities to enrich a quality learning environment that advances education, technology, scholarship, and public service.

KEY EVENTS

The new Humanities Building was completed during the year and classes were held during the spring semester. Faculty and staff moved in during the summer. The building qualified as a “Gold L.E.E.D.” facility and has a photo-voltaic system that will provide approximately 19% of the building’s electric power needs. The new facility also includes two outdoor teaching areas in a low maintenance, but attractive garden space that is ideal for outdoor events.

SCC hosted the CIF State Girl’s Volleyball Championship in December 2013, held at SCC’s new gymnasium. Five divisional championship games were played, pitting the Northern California against the Southern California champions.

Protective netting was installed on two sides of the SCC swimming pool; one behind the left field fence of the softball field to prevent softballs from hitting anyone at the swimming pool area, and another similar net at the southwest corner of the practice soccer field.

Skilled Maintenance Worker Lee Atwood was selected as the SCC Classified Employee of the year. Lee’s desire to serve the college community, his work ethic and his knowledge of repair and maintenance practices make him a valuable member of the Administrative Services staff. Lee is also SCC’s only certified staff member to maintain the new swimming pool.

For the second year, an environmental science class from Chapman University visited the campus to observe what efforts have been made to have a sustainable campus. From the observation, the students also provided suggestions on what more could be done.

In January, installation was completed on a new sound system for the gymnasium. In addition to having a state-of-the-art audio system, there is a capability to isolate the system to one specific section, so that separate activities can be held in other sections of the gymnasium.

Two portable generators for use in the event of an emergency were purchased for SCC by District Risk Management. The generators will be used to provide some temporary lighting, but also provide the capability to recharge radios and cell phones in case of a power outage.

Work has begun on the project to modify the air conditioning of the Science Center. The project should result in energy savings since it will eliminate the constant need to have both the supply and exhaust fans run at maximum capacity. At the same time, the system will be more sensitive to times when the science labs are being utilized and the fume hoods are needed. A portion of this project was supported with funds provided by Southern California Edison.
• The new Chapman Avenue entrance was opened during this academic year.

• A new metal roof was installed on the D Building and there was no evidence of problems during the winter rains. Despite changing from a tile to a metal roof, the appearance blends in nicely with the rest of the building and the campus.
The Santiago Canyon College Foundation (SCCF) is a 501(c)(3) non-profit organization exclusively dedicated to raising supplemental funds that directly benefits Santiago Canyon College and enhances the college experience of its students. To do this, the SCC Foundation works to raise the profile of the College and expand the number of meaningful partnerships with local corporations, foundations and individuals who believe in the value of high-quality and accessible public education.

EVENT HIGHLIGHTS
In 2013-14, the Foundation supported some high-profile community activities and fundraisers, including: 5th Annual Online Auction (November 14-21, 2013) • 14th Annual SCC Hawks Golf Tournament (April 25, 2014) • Scholarship Donor Reception (May 22, 2014) • Alumni/Student Networking Mixers (November 21, 2013 and April 17, 2014).

PROGRAM SUPPORT HIGHLIGHTS:
Foundation income from donations and events helped support a variety of college programs in 2013-14, including:

Over $150,000 in direct scholarship support and book grants for students
- Faculty-organized Speakers Symposium
- Forensics Team
- Support for SCC Alumni networking/mentoring programs
- Guardian Scholars (for students exiting the foster care system)
- Extended Opportunity Programs & Services (EOPS) Program (for disadvantaged students)
- Annual Student Art Acquisition Program support
- Community Science Night
- Performing Arts Holiday Showcase

Award Recipients

Full-Time Distinguished Classified Award – **Lee Atwood** (Administrative Services)
Part-Time Distinguished Classified Award – **Gloria Trujillo** (Resource Center, OEC)
Classified Spirit Award – **Laura Espinosa** (Academic Affairs)
Full-Time Faculty Excellence Award – **Denise Foley** (Biology)
Adjunct Faculty Excellence Award – **Melody Vaught** (Counseling)
Continuing Education Adjunct Faculty Excellence Award – **Jennifer Rincon** (High School Subjects/Adult Basic Education)

Economics Professor **Alex Taber** was selected as the Orange County Community College Teacher of the Year by the Orange County Department of Education

Retirements

**Diane Durdella**, Administrative Secretary, Counseling & Student Support Services
**Irene Scroggins**, Administrative Secretary, Admissions & Records
**Donna Siloti**, Senior Account Clerk, Community Services
**Bonnie Slager**, Professor of Accounting
**Juan Vázquez**, President, Santiago Canyon College
Santiago Canyon College is an innovative learning community dedicated to intellectual and personal growth. Our purpose is to foster student success and to help students achieve these core outcomes: to learn, act, communicate and think critically. We are committed to maintaining standards of excellence and providing an accessible, a transferable, and an engaging education to a diverse community.
