

**Instructions for Using the Forced Ranking Sheet.**

1 Rank the first position #1.

Astronomer	1				
Gemologist					
Mathematician					
Taxidermist					
Zoologist					

2 If the second position is considered more important than the first, rank accordingly.

Astronomer	1	2			
Gemologist		1			
Mathematician					
Taxidermist					
Zoologist					

3 Determine how the third position ranks amongst the first two ranked positions.

Astronomer	1	2	3		
Gemologist		1	1		
Mathematician			2		
Taxidermist					
Zoologist					

4 Determine how the fourth position ranks amongst the first three ranked positions.

Astronomer	1	2	3	3	
Gemologist		1	1	1	
Mathematician			2	2	
Taxidermist				4	
Zoologist					

5 Determine how the fifth position ranks amongst the first four ranked positions.

Astronomer	1	2	3	3	4
Gemologist		1	1	1	2
Mathematician			2	2	3
Taxidermist				4	5
Zoologist					1

6 Repeat the above process until all positions are ranked accordingly.

7 Once all positions are ranked, and the final column is complete, submit your rankings as per the **Instructions for Submitting Position Requests.**
