

# Career Transitions Articulated Pathways (CTAP)

## What:

This program gives high school students the opportunity to receive SCC credit for selected ROP high school coursework through articulation.

**Articulation** is a planned process that links high schools with SCC to facilitate a smooth transition for students from one course, program, or educational level to the next while minimizing or eliminating course repetition. This gives students a great jumpstart on college, saving time and money — and getting students into their chosen careers faster.

## How:

For student to receive college credit for a ROP course taken in high school, the student needs to do the following:

1. Go to [www.sccollege.edu](http://www.sccollege.edu) and apply to Santiago Canyon College (SCC).
2. Enrolled and be registered in at least one SCC college credit class at the time of petition.
3. Obtain an official sealed hard copy of high school transcripts or have them sent to SCC through Parchment (<https://www.parchment.com/>) and schedule an appointment with Amanda Campbell, CE Counselor, 714-628-4800.

Once enrolled, and if the student earned a B (3.00 GPA) or higher in both semesters or in a full term of the high school ROP course, then the CE counselor will forward the petition to the Admissions and Records Office and credit for the articulated course will be posted to the student's SCC transcript.
