## Career Technical Education Certificate of Completion

# 3D Printing/Advanced Manufacturing

- Average California Hourly Wage \$18.21
- Annual California Job Openings through 2024: Over 9,900

The Certificate of Completion 3D Printing / Advanced Manufacturing is designed to teach students how to use a 3D printer and the technology behind 3D printing. Students will learn about the different plastic filaments that are used, and the techniques for feeding the plastic filament into the 3D printer for optimal performance. Students will also learn about future applications and components of the printer, such as the extruder nozzle, contact sensor, calibration techniques, software, design methods, and reducing defects. An emphasis is placed on familiarizing students with the use of 3D printing in the areas of personal applications, engineering, design and manufacturing.
