Randy Scott
Office: D-116-7 (I'm not there!)
Phone: (714) 628-4947 (Don't call . . . email!)
email: scott_randy@sccollege.edu

Office Hours, ConferZoom

T 1000-1230
Th 1000-1230

Prerequisite

Math 185, or equivalent, with a grade of C or better.

Attendance

Attendance and participation at all Zoom meetings is required.

Be in class (Zoom), on time, each and every day. Attendance comprises a small part of your course grade and missing class will adversely affect your course grade. From the 2020-2021 SCC Catalog: "A student may be dropped for excessive absences when the total hours of absence exceed 10% of the total scheduled hours of class."

For Spring 2021, this means I will drop you for excessive absence if you miss more than 3 class (Zoom) meetings.

Withdrawals

If you decide to drop this class, it is *your responsibility* to follow the correct procedures. The last day to drop this class with no record of participation and to receive a refund is February 21, 2021. The last day to drop this class with a W grade is May 9, 2021. Again, it is *your responsibility* to be aware of and to follow the correct procedures.

Behavioral Expectations

Grandpa says "You're an adult, so act like it." If you're not sure what that means, just ask. . . Grandpa will be happy to explain ;)

RSCCD Standards of Student Conduct All students are responsible for maintaining appropriate conduct while enrolled in classes through the Rancho Santiago Canyon College District (RSCCD). Guidelines for student conduct are set forth in the RSCCD Standards of Student Conduct policy. Detailed RSCCD information (board policy) regarding student discipline and rights within this policy is available in the college catalog and BP 5500:

<https://rscdd.edu/Trustees/Pages/policies-and-regulations.aspx>

Based upon the RSCCD Standards of Student Conduct (also known as the Code of Conduct) all students will be in violation of the code should you become disruptive in any way, such that you disrupt the teaching of this class. This includes excessive talking with your peers and cell phone usage, which is inclusive of texting. Students who violate the Standards of Conduct are subject to disciplinary action that includes, but is not limited to, removal from class, suspension and expulsion.

RSCCD Title IX Statement Rancho Santiago Community College District is committed to providing a safe and nondiscriminatory campus. The district takes all allegations of sexual misconduct seriously and encourages all individuals to report misconduct to any District employee that the Complainant trusts and feels comfortable with. Under Title IX, the District is required to take immediate and corrective action if a responsible employee knew or, in the exercise of reasonable care, should have known about sexual or gender-based harassment that creates a hostile environment. These actions include: Stopping the conduct Preventing its re-occurrence Remediating its effects Providing care and support for the reporting person Taking steps to insure the safety and security of our community

The District considers all employees responsible employees (with the exception of Psychologists at the Student Health Center) and as such, they are required to share a report of misconduct with the Title IX Coordinator or a member of the Title IX team. The Title IX team, under the guidance of the Title IX Coordinator, will conduct an initial assessment of the conduct, the Complainants expressed preferences, if any, as to course of action, and the necessity for any interim remedies or accommodations to protect the safety of

the Complainant or the community. If a student does not wish to report an incident to a responsible employee but wishes to speak to someone confidentially, the student can speak to the College Psychologist. Only psychologists within the Student Health Center are required by law to maintain near or complete confidentiality. The College Psychologist is located in the Student Health & Wellness Services in T-102 or call 714-628-4773.

Accommodations for Disabilities

Students with verifiable disabilities who want to request academic accommodations are responsible for notifying their instructor and Disabled Students Programs and Service (DSPS) as early as possible in the semester. To arrange for accommodations, contact DSPS at (714) 628-4860 or by TDD (714) 639-9742 or stop by the DSPS Center in E-105.

Academic Honesty

Students attending Santiago Canyon College are expected to be honest and forthright in their academic endeavors. To falsify the results of research, to steal the words or ideas of another or to cheat on an examination, corrupts the essential process by which knowledge is advanced. Academic dishonesty is seen as an intentional act of fraud, in which a student seeks to claim credit for the work or efforts of another without authorization, or uses unauthorized material or fabricated information in any academic exercise. We, as an institution, also consider academic dishonesty to include forgery of academic documents, intentionally impeding or damaging the academic work of others, assisting other students in acts of dishonesty or coercing students into acts of dishonesty.

In matters relating to academic honesty violations, the primary responsibility for disciplinary proceedings rests with the instructor and the academic division where the violation allegedly occurred.

Math Success Center (nee: MaSH) Registration

The Math Success Center (a.k.a. MSC) is a FREE service provided by SCC that provides students with supplemental learning to the classroom. A math faculty member, Instructional Assistants and student tutors are always on duty to assist students with questions or concerns from their math class. Due to COVID-19, the MSC is will be offered remotely via Canvas for Spring 2021. The hours of operation for Spring 2021 are

Spring 2021

Monday through Thursday: 9:30 a.m.-7:30 p.m. (0930-1930)

Saturday 9 a.m.–3 p.m. (0900-1500)

To utilize the MSC, you must enroll in MATHCE 100. Once enrolled, you can access two types of assistance, discussion boards and live help.

- **Discussion Boards:** Once in the MATHCE 100 Canvas page, students can post questions to a discussion board at any time. Please follow the directions for posting and a staff member will reply within 24 business hours.
- **Live Help:** Offered only during the hours of operation. Once in the MATHCE 100 Canvas page, click the “Get Help Now” button on the homepage. Scroll through the MSC staff members. Any staff members on duty will display a green “online” icon. On that staff member’s card, click “Ask for help” and you will be able to start a conversation with that staff member. During live help, staff members have chat options and can also utilize an interactive whiteboard to assist you.

The MSC is a Pass/No Pass, Open Entry/Open Exit noncredit course. You will need to complete at least 10 hours and one activity in the MSC within the 8-week semester to earn a grade of Pass (P). When you log into Canvas and are in the MSC course (MATHCE 100), your hours are automatically being logged. At the end of the semester we will use the Canvas log to assign grades. A Pass (P) will be assigned to any student who completes at least 10 hours on Canvas, plus completes one assignment in Canvas. A Satisfactory Progress (SP) will be assigned to any student who completes any number of hours in the MSC (via Canvas). If you do not complete any hours in the MSC (via Canvas) you will be dropped from the course at the end of the semester and it will not show on your transcript. If you have any questions or concerns, please email the MSC at sccmathstudyhall@scccollege.edu

Calculator/Technology Use

We will use a variety of technologies during the semester. Since the course is presented in the RemoteLIVE! format, you will need access to the course Canvas site and through that site to Zoom. We will also be incorporating other web-based technologies that you can access through your computer or smart-phone. You will probably want a graphing calculator for this course. Any brand of calculator is fine; I expect you to be able to demonstrate your understanding of the concepts and principles independent of any particular piece of technology. We will discuss appropriate use of technology during class.

Exams

Exams are *tentatively* scheduled for Tuesday, March 9, Tuesday, April 20, and Tuesday, May 18, 2021. I reserve the right to change the date to reflect the progress we make in the class, but I promise to always give you at least a one week notice before an exam.

Completed exams will receive 50% credit if submitted less than *one hour* after the due date/time and 0% credit if submitted more than *one hour* after the due date/time.

Quizzes

A short quiz will be given as indicated on the schedule. Some quizzes will be at the beginning of the class time, some in the middle, and some at the end of the class time.

Completed exams will receive 50% credit if submitted less than *one hour* after the due date/time and 0% credit if submitted more than *one hour* after the due date/time.

I will drop your lowest quiz score at the end of the semester.

Homework

Doing work outside of class time provides the essential practice needed for success in mathematics. Plan to spend at least *three* hours outside of class for each hour in class. These *three* hours may include reviewing your class notes, reading the textbook, working on the assigned problems, or reviewing older homework assignments.

Regularly check your class calendar to stay current on homework assignments and submissions through Canvas.

Completed assignments will receive 50% credit if submitted less than *one week* after the due date/time and 0% credit if submitted more than *one week* after the due date/time.

Final Exam

A comprehensive final exam will be administered during the last regularly scheduled class meeting: Thursday, June 3, 2021.

Grades

Your grade in this class is computed using a weighted average with the following category weights and letter grade assignments with p being your class percentage and l being the letter grade:

Exams 50%	If $p \geq 90$, then	$l = A$
Quizzes 15%	If $80 \leq p < 90$, then	$l = B$
Homework 10%	If $70 \leq p < 80$, then	$l = C$
Attendance 5%	If $60 \leq p < 70$, then	$l = D$
Final Exam 20%	If $\leq p < 60$, then	$l = F$

For example, to find your exam category score, compute the average (arithmetic mean) of the percentage of each of your exam scores. To find your quizzes category score, compute the average (arithmetic mean) of the percentage of each of your quiz scores. Sum the products of all the category scores and the weight, and the result is your class percentage.

Some Thoughts

I believe that each and everyone of you can be successful with mathematics. I believe that being able to understand and communicate mathematics is of critical importance for you, your children, and all the future generations of your family. If you work hard and maintain a positive, productive attitude, you will gain an understanding of mathematics that will insure your success for many years to come.

Student Learning Outcomes

Department SLOs: Upon completion of any course in Mathematics the student will be able to

1. Create mathematical models of real world phenomena, apply those models to make predictions about the behavior of the phenomena, apply appropriate problem solving techniques, and critically evaluate the veracity of the obtained results.
2. Clearly communicate mathematical reasoning and problem solving skills using a variety of formats, diverse technologies, and appropriate mathematical vocabulary and notation.
3. Integrate into educational and professional conduct a calm, confident, and ethical approach to mathematical reasoning and problem solving while taking personal responsibility for mathematical successes

Course SLOs: Upon completion of this course the student will be able to

1. State and apply basic definitions, properties and theorems of Multivariable Calculus
2. Apply vector operations in two and three dimensions and use vector methods to analyze plane and space curves, and curvilinear motion.
3. Apply standard techniques of multivariable calculus, both differential and integral to solve selected applied problems

Santiago Canyon College, Spring 2021, Mr. Scott
 Math 280, Intermediate Calculus
 Text: Stewart, James; *Calculus, Early Transcendentals, 8e*

Ch. 12 Vectors and the Geometry of Space

Section	Assignment
12.1 Three Dimensional Coordinate Systems	1, 3-6, 8, 11-13, 15, 17, 18, 25, 27, 29, 30
12.2 Vectors	1, 2, 4, 5, 7, 9, 11, 14, 19, 20, 22, 23-25, 27, 28, 31, 32, 33
12.3 The Dot Product	1, 5, 7, 9, 10, 14, 18-20, 23, 25, 27, 39, 41, 43, 45, 49
12.4 The Cross Product	3, 5, 7, 9, 12, 13, 15, 17-19, 27, 33, 35, 39, 40, 41
12.5 Equations of Lines and Planes	1, 2-5, 7-17 odd, 19, 21, 23, 25, 27-29, 31, 34, 37, 39, 41, 45, 48, 52, 55, 57, 61-63
12.6 Cylinders and Quadric Surfaces	1, 2, 3, 5, 7, 9, 11, 13, 14, 16, 17-20, 21-28, 30, 33, 34, 36

Ch. 13 Vector Functions

Section	Assignment
13.1 Vector Functions and Space Curves	1, 2, 5, 6, 9, 11, 15, 17, 27, 28, 37, 40, 41, 45, 47
13.2 Deriv's and Int's of Vector Functions	1, 3, 5, 9-19 odd, 23, 25, 29, 31, 33, 35, 37, 40
13.3 Arc Length and Curvature	1, 3, 5, 9, 11, 13, 14, 15, 17, 19, 21, 25, 33, 35, 37*, 47, 49, 51
13.4 Motion in Space: Velocity and Acceleration	3, 8, 11, 13, 15, 17, 33, 37, 39

Ch. 14 Partial Derivatives

Section	Assignment
14.1 Functions of Several Variables	1, 3, 4, 5, 7, 9, 15, 17, 23-31 odd, 32, 33, 34, 36, 37, 39, 40, 43, 55-58, 59-64, 65, 66, 79
14.2 Limits and Continuity	3, 5, 7, 9, 11, 15, 19, 29-35 odd, 39-41
14.3 Partial Derivatives	1, 3, 5-8, 10, 15-37 odd, 41, 43, 47, 49, 51, 53, 61, 65, 67, 70, 84-86
14.4 Tangent Planes and Linear Approx's	1, 3, 5, 7, 11, 13, 15, 22, 25, 27, 31, 35
14.5 The Chain Rule	1-5 odd, 7-11 odd, 13, 17, 19, 21-25 odd, 27, 29, 31, 33, 37, 39, 40, 42
14.6 Directional Deriv's and the Gradient Vector	1, 2, 5, 7, 9, 11-17 odd, 21-25 odd, 31, 33, 38, 41-45 odd
14.7 Maximum and Minimum Values	1, 3, 5-17 odd, 23, 27, 29, 31, 33, 39, 47
14.8 Lagrange Multipliers	1, 3, 5, 11, 13, 15-17, 25, 26

Ch. 15 Multiple Integrals

Section	Assignment
15.1 Double Integrals over Rectangles	1, 2, 5, 9, 15-25 odd, 27-33 odd, 37
15.2 Double Integrals over General Regions	1-5 odd, 7-10, 15, 16, 17, 21, 23, 25, 29, 39, 45-50, 51-55 odd
15.3 Double Integrals in Polar Coordinates	1-4, 5, 6, 9, 10, 13, 15, 17, 22, 25, 29, 31, 36
15.4 Applications of Double Integrals	1, 2, 3, 5, 7, 13, 17, 25*, 26* (Probability ... 27, 29, 33)
15.5 Surface Area	1, 3, 6, 9, 13, 17
15.6 Triple Integrals	3, 5, 7, 9-17 odd, 19, 27, 28, 29, 31, 33, 34, 38, 43
15.7 Triple Integrals in Cylindrical Coordinates	1-12, 15, 16, 17, 19, 21, 25, 27, 29, 30
15.8 Triple Integrals in Spherical Coordinates	1-14, 17, 18, 19, 20, 21, 23, 27, 29, 35, 37, 39, 40
15.9 Change of Variables in Multiple Integrals	1-5 odd, 7, 9, 11, 13, 15, 17, 19, 23, 25

Continued on next page

Ch. 16 Vector Calculus

Section	Assignment
16.1 Vector Fields	1, 5, 9, 11-14, 15-18, 21, 23, 25, 27, 29-32, 35
16.2 Line Integrals	3, 5, 7, 11, 17, 18, 19, 21, 27, 29, 31, 39, 42
16.3 The Fundamental Theorem for Line Integrals	1, 3-9 odd, 11, 13, 15, 17, 19, 23, 25
16.4 Green's Theorem	1, 3, 7, 9, 13, 15, 17, 18
16.5 Curl and Divergence	1, 5, 7, 9, 11, 12, 13, 15, 19, 21
16.6 Parametric Surfaces and Their Areas	1, 3, 5, 7*-12*, 13*-18*, 19, 21, 23, 27*, 28*, 33, 35, 39, 43, 45, 49, 57*
16.7 Surface Integrals	5, 7, 9, 13, 17, 19, 23, 25, 27, 36*, 45
16.8 Stokes' Theorem	1, 3, 5, 7, 11, 13, 15
16.9 The Divergence Theorem	1, 3, 7, 9, 13, 15
16.10 Summary	

Ch. 17 Second-Order Differential Equations

Section	Assignment
17.1 Second-Order Linear Equations	1-31 odd
17.2 Nonhomogenous Linear Equations	1-27 odd
17.3 Applications of Second-Order Diffy Equ's	1, 2, 3, 7, 13, 14
17.4 Series Solutions	1-9 odd
