Library Update

10th Anniversary Celebration

On Wednesday, May 3rd, the Library celebrated the 10th anniversary of the opening of the current Library building. By answering the question, "If money were no object, what would you buy for the Library?," two hundred and ninety-three students received a free ticket to either a bakery or pizza food truck. Their responses were innovative and outside the box. These creative responses will be useful in future planning for the College and highlighted, amongst other ideas, a strong desire for a student union on campus. In addition to the food trucks, 500 students received a library-branded slap bracelet with a 4GB flash drive

and used book sale, were sponsored by the SCC Friends of the Library.

Core Concept Video Collection

In spring 2017, six library instruction videos were added to the library website, enhancing our digital presence and furthering our goal of offering comprehensive access to learning support services for all students. The videos, which cover core library research and citation concepts, are 3-5 minutes in length and closed-captioned. Seth Daugherty (pictured on right), our new eLearning Librarian, was instrumental in the acquisition and creation of these videos.

Videos currently available from the library website include:

- *Selecting & Using Keywords*
- *What is SmartSearch?*
- *Scholarly, Trade & Popular Articles*
- *Selecting Relevant Articles*
- *MLA Citation (8th ed.)*
- *APA Citation (6th ed.)*

Additional library instruction videos will be added in fall 2017 and will include SCC Library-specific videos created by Seth.

Coming soon:

- *What is an annotated bibliography?*
- *Primary & Secondary Sources*

- *Using Other People's Ideas (Avoiding Plagiarism)*
- *Chicago Citation (Author-Date; Notes-Bibliography)*

Consider embedding these videos in your course websites.

rev. 6/2/17

Feedback from campus faculty members has resulted in the addition of two new library workshops.

Creating Citations (Chicago/Turabian) joins a schedule that already includes *Creating Citations (APA)* and *Creating Citations (MLA)*.

The Creating Citations workshops cover the basic elements of a citation, as well as NoodleTools, the Library's subscription-based online citation builder. With the addition of the *Creating Citations (Chicago/Turabian)* workshop, the Library now offers workshops on the three major citation styles used on campus.

Primary/Secondary Sources teaches students to identify primary and secondary sources, as well as search techniques for locating them.

The Library offers over 50 workshops per semester covering seven different research topics: *Finding Articles, Credible Internet Sources, Literary Criticism Sources, Primary/Secondary Sources, and Creating Citations (APA, Chicago/Turabian, and MLA)*.

Advance online registration for the workshops is required. There is no charge for library workshops. Students receive verification of attendance at the end of each 30 minute workshop.

Consider requiring workshop attendance to improve student success.

"Libraries store the energy that fuels the imagination. They open up windows to the world and inspire us to explore and achieve, and contribute to improving our quality of life. Libraries change lives for the better."—Sidney Sheldon

ASG Funds Mobile Device Charging Stations

Two mobile device charging stations were added to the Library this academic year. The stations, one on each floor, are capable of charging a broad variety of devices, including phones, phablets and tablets.

The purchase of the charging stations was made possible by the SCC Associated Student Government through the Helpful Hawks Project and the SCC Friends of the Library.

The charging stations have been so popular that the Library is already planning the purchase of additional ones.

☑ Facts On File
Bloom's Literature

This semester, the Library began a one-year trial of Bloom's Literature. This resource contains more than 20,000 critical essays from over 500 literary journals and 2,300 scholarly and critical books, including 700 titles published by *Bloom's Literary Criticism* and *Facts On File*. Also included in the database are more than 13,000 biographies, 45,000 character entries, 5,000 synopses of literary works and hundreds of images and videos.
