Alumni Profiles - SCC Faculty Phil Crabill

When counselor Phil Crabill began working for [Santiago Canyon College](#) in 2007, he felt as if he were coming home as he was a member of the college's first graduating class in 2000.

"I was the first person in my family to go to college so my graduation was a big deal," he recalls. [Read more](#)

SCC Forensics Team Wins Big

In February the SCC Forensics team competed in the Spring Championships held at Moorpark College and had its most successful debate tournament since the program's revival a few years ago. SCC won first place in the novice division, as well as first place I the limited entry division. Of particular note, two SCC debate teams tied for first place, the equivalent of pitching a *no-hitter* in baseball. One forensics team member,

Joe Kahn, was presented with a \$350 scholarship, after being awarded the prestigious Bovero Award for embodying the qualities of forensics excellence, as well as service to the community. For more information about the team, click [here](#).

Alumni Hawks Swoop In!

In the first alumni game in the 15 year history of Santiago Canyon College Women's Soccer, over 40 former Hawks from seasons past returned to take on the current team in an entertaining game between two talented squads in front of a large crowd. It was great to see so many players, coaches and families return. For some the field was in a different location. For many, the campus was barely recognizable from when they attended SCC. But for all, it was good to reunite, see some new faces and get reacquainted with some team-mates from years past. The women's soccer staff would like to thank the alumni student-athlete soccer community for their individual and collective contributions to the success of the SCC women's soccer program, specifically for building the profile of the college in the local community and across the state/nation.
