- I think we should wait to collect more data on this because many students are against this from the conversations I have had with them

Rob

- this is one part of implementation and this is only one step to get this to be effective
- this will be a time for more activities to help keep students on campus

Kato

- this time will be very competitive between clubs and events
- how effective will it be if now you can only pick one thing to do during this time per week
- people who are part of multiple clubs won't be able to attend their meetings they will have to pick one
- this will make it more difficult for newer clubs to form

Simmons

- lots of students and staff that I have talked to are happy for this because it allows more access to office hours

Nava

- we need to hear the opinions of the students themselves
- we should survey this

Cota

- this adds more freedom to students if clubs decide to compete for time that is their choice and is not the only option

naqvi

- facilities would not let all clubs be scheduled at the same time

Jio

- this will displace a lot of clubs and classes from the current schedule

Jones

- this will open up this time and we should try it as it could work well

Kato

- this will hinder longer classes as if this is in the middle of the day STEM classes that are 5 hours long they will have to be pushed into the evening
- this will cause more condensed classes later in the day and will cause problems for clubs that are trying to meet

Jones moves to go to a roll call vote on a resolution seconded
