SEAS THE DAY "GLORY DAYS" TOUR OF QUEEN MARY

This memorable coastal getaway begins aboard one of the most famous ships in history! When The Queen Mary took her maiden voyage in 1936, she was the largest, fastest and most luxurious passenger ship in the world! In the era of steamships, The Queen Mary became synonymous with prestige and exclusivity, a status symbol for those in high society who could afford to travel in style. During her 31 years at sea, this floating palace offered an unparalleled travel experience for the rich and famous crossing the Atlantic Ocean, until her final voyage from England to Long Beach in 1967 marked the end of an era. We'll enjoy a guided "Glory Days" tour focused on The Queen Mary's fascinating history, mysterious legends, and paranormal curiosities. Learn about her fascinating history - from construction to her time transporting the British Royal Family and her days as a troop ship during World War II. Your knowledgeable and engaging tour guides will bring the ship's past to life with interesting stories and anecdotes along with nostalgic photographs and memorabilia on display. Following, enjoy time at leisure exploring the ships public spaces and shops at leisure. This afternoon we'll continue to Gladstone's Long Beach, the highly rated waterfront restaurant that has been in operation in Long Beach's Rainbow Harbor since 1949. Enjoy an included lunch with choice of entree while soaking up the restaurant's relaxed ambiance and picture-perfect location. We top off the day with an included ice cream treat at a locals' favorite that offers unique flavors that are rich and creamy - the perfect way to end our coastal getaway.

On this truly unique and educational experience, we'll travel to the Coachella Valley to explore the San Andreas Fault. Onboard for this exclusive new tour will be a local guide who will tell the story of California's seismic activity and share a wealth of knowledge about fault activity, local geography and geology. We'll visit the Coachella Valley Preserve, a 20,000-acre nature preserve providing a fascinating ecosystem in the Indio Hills east of Palm Springs. After an introduction to plate tectonics, we'll have an opportunity to stand on the San Andreas Fault and see a palm oasis up-close. These lush pockets of vegetation amongst this dry desert landscape are sustained by underground water seeping out of the San Andreas Fault. This afternoon we'll continue into the Mecca Hills and visit the "backside" of the fault at Box Canyon. These uniquely eroded formations are the result of the ongoing collision between the North American Plate and the Pacific Plate along the San Andreas Fault, making the Mecca Hills one of the more unusual geological sites of its kind. This unobstructed view of 3-5 million years of tectonic plate destruction is one reason why the Mecca Hills Wilderness has been studied so extensively by geologists and seismologists. Don't miss this intriguing and fascinating day that includes a boxed lunch picnic. No visit to the Coachella Valley is complete without a stop at Hadley Fruit Orchards. Founded in 1931, this southern California landmark has provided a friendly place to shop for premium quality Medjool dates, dried fruit, nuts, hand-mixed trail mixes, honey, preserves, freshly-ground peanut butter and a variety of gifts. At the snack bar is where you'll find their famous date shakes! This tour involves moderate walking over uneven terrain, and closed-toe shoes are recommended.
