PRINCIPAL/COUNSELOR'S CERTIFICATION FOR CONCURRENT ENROLLMENT

Section 1. Section 48800 of the Education Code: 48800. (a) The governing board of a school district may determine which pupils would benefit from advanced scholastic or vocational work. The intent of this section is to provide educational enrichment opportunities for a limited number of eligible pupils, rather than to reduce current course requirements of elementary and secondary schools. The governing board may authorize those pupils, upon recommendation of the principal of the pupil's school of attendance, and with parental consent, to attend a community college during any session or term as special part-time or full-time students and to undertake one or more courses of instruction offered at the community college level. (b) If the governing board denies a request for a special part-time or full-time enrollment at a community college for any session or term for a pupil who is identified as highly gifted, the board shall issue its written recommendation and the reasons for the denial within 60 days. The written recommendation and denial shall be issued at the next regularly scheduled board meeting that falls at least 30 days after the request has been submitted. (c) The students shall receive credit for community college courses that they complete at the level determined appropriate by the school district and community college district governing boards. (d) The principal of a school may only recommend a pupil for community college summer sessions if that pupil meets all the following criteria: (1) Demonstrates adequate preparation in the discipline to be studied. (2) Exhausts all opportunities to enroll in an equivalent course, if any, at his or her school of attendance. (3) For any particular grade level, a principal may not recommend for community college summer session attendance more than 5 percent of the total number of pupils who completed that grade immediately prior to the time of recommendation. (4) Notwithstanding Article 3 (commencing with Section 33050) of Chapter 1 of Part 20, compliance with this subdivision may not be waived.

Section 2. Section 48800.5 of the Education Code: 48800.5 (a) A parent or guardian of a pupil, regardless of the pupil's age or class level, may petition the governing board of the school district in which the pupil is enrolled to authorize the attendance of the pupil at a community college as a special full-time student on the ground that the pupil would benefit from advanced scholastic or vocational work that would thereby be available. If the governing board denies the petition, the pupil's parent or guardian may file an appeal with the county board of education, which shall render a final decision on the petition in writing within 30 days. (b) A pupil who attends a community college as a special full-time student pursuant to this section is exempt from compulsory school attendance under Chapter 2 (commencing with Section 46100) of Part 26. (c) A parent or guardian of a pupil who is not enrolled in a public school may directly petition the president of any community college to authorize the attendance of the pupil at the community college as a special part-time or full-time student on the ground that the pupil would benefit from advanced scholastic or vocational work that would thereby be available. (d) Any pupil authorized to attend a community college as a special full-time student shall, nevertheless, be required to undertake courses of instruction of a scope and duration sufficient to satisfy the requirements of law. (e) For purposes of allowances and apportionments from the State School Fund, a community college shall be credited with additional units of average daily attendance attributable to the attendance of special full-time students at the community college.

Section 3. Section 48802 of the Education Code: 48802. (a) For purposes of allowances and apportionments from Section B of the State School Fund, a community college shall be credited with additional units of average daily attendance attributable to the attendance of pupils at the community college as special part-time students pursuant to this article and as set forth in Section 76002. (b) A school district whose pupils attend a community college as special part-time students pursuant to this article shall, for purposes of allowances and apportionments from Section A of the State School Fund, continue to receive credit for attendance by those pupils computed in the manner prescribed by law, and a pupil's attendance at school for the minimum school day shall be deemed a day of attendance for purposes of making the computation.

Section 4. Ed Code 52620: The governing board of a school district overseeing an adult education program or the governing board of a community college district overseeing a noncredit program may authorize a student pursuing a high school diploma or a high school equivalency certificate, upon recommendation of the administrator of the student's adult school or noncredit program of attendance, to attend a community college during any session or term as a special part-time student, and the community college district shall be credited or reimbursed pursuant to Section 48802 or 76002, provided that no school district has received reimbursement for the same instructional activity. The intent of this section is to better facilitate streamlined enrollment in colocated credit college courses on adult education and noncredit program sites and to help ensure a smoother transition from secondary education to college for adult high school equivalency students by providing them with greater exposure to the collegiate atmosphere.
